ROAD CUT

I intend to cut across blacktop road # _____. Location of this road is _____.

I understand there is a fee of **\$ 35.00** per cut and that this needs to be paid before work is started. **Road cut shall be made by saw and not by trencher or backhoe.** This will make a clean cut and will be easier to fill and maintain, and cause much less damage.

I also understand that I will be responsible for maintaining a safe traffic flow, and it is my responsibility to notify all emergency personnel of conditions and work being done at the site.

It is also the responsibility of the client to backfill the cut with stone at the conclusion of the project. The Highway Department requests that you use either compacted 73's or 53's for fill.

The purpose of the \$ 35.00 charge is for the cost of replacement blacktop material.

Signed: _____

Date: _____

Thank you.
