ROAD CUT OR BORE

I intend to cut or bore across blacktop at road
#_____. Location of the road is
_____.

I understand there is a fee of \$ 350.00 per cut and that this needs to
Be paid BEFORE work is started. ROAD CUT SHALL BE MADE BY SAW
AND NOT BY TRENCHER OR BACKHOE. This will make a clean cut and
will be easier to fill and maintain, and cause much less damage.

I also understand that I will be responsible for maintaining a safe
traffic flow and it is my responsibility to notify all emergency
personnel of conditions and work being done at the site.

It is also the responsibility of the client to backfill the cut with stone
at the conclusion of the project. The Highway Department requests
that you use either compacted 73's or 53's for fill.

The purpose of the \$ 350.00 charge is for the cost of replacement of
blacktop material.

Signed: _____

Date: _____

Thank you.
