

ARTICLE 6

SITE PLAN REVIEW

SECTION 600 – Intent

The purpose of this Article is to regulate multi-family, commercial, office, industrial and other developments of structures and sites in a manner which considers the impacts to adjacent properties and public infrastructure. Single family residences are exempt from Site Plan Review. Site Plan Review will address specific issues such as parking, landscaping, internal and external access, storm water runoff and erosion, garbage collection areas and outside storage. Further, this Article is written for the benefit of a property owner or developer because it provides the design standards and requirements for developing property within Decatur County. This Article includes references to all other pertinent Articles related to the Site Plan Review procedure and requirements.

SECTION 605 – Authority

The purpose of Site Plan Review is to protect the public health, safety and general welfare of Decatur County. The provisions and requirements in this Article are written and shall be administered to ensure orderly growth and development of Decatur County. No building shall be erected or expanded, nor shall any grading take place or other site improvements occur, on any lot, site, or parcel for uses where Site Plan Review is required except in accordance with the regulations in this Zoning Ordinance and with the requirements stated in this Article. All such Site Plans shall be reviewed by the Planning Department and a determination either approving or rejecting such plans shall be made in accordance with the requirements of this Article and other applicable, Articles of this Ordinance.

The Planning Department shall not be permitted to reject any Site Plan which is in full conformance with the requirements, terms and conditions of this Article and Zoning Ordinance, nor can additional regulations be imposed which are not included within this Ordinance. All approved Site Plans shall be binding upon the applicant, property owner, developer, or their successors and shall limit the development or project to the construction work as shown on the approved Site Plan and to all conditions and limitations for such plans agreed to by the applicants. Amendments or changes to the approved Site Plans shall be subject to the provisions of section 2335. Site Plan Review is required when specified by the individual zoning district, when the proposal is beyond the scope of a Zoning Permit as specified in Article 6, or when the scope of the proposal is within the definition of a Minor Site Plan or Major Site Plan as described in Section 2310.

SECTION 610 – Procedure

Prior to submitting an application for Site Plan Review each applicant, property owner, or developer is encouraged to have a pre-application meeting with the Decatur County Plan

Commission planning staff. The purpose of the pre-application meeting is to advise each applicant, property owner, or developer of the Site Plan Review procedure and requirements and discuss any initial concerns and omissions about the Site Plan that is being previewed. In addition, the results of the meeting will also determine whether the development proposed will follow the Minor Site Plan Review procedure or the Major Site Plan Review procedure. Both types of procedures are described below. Typically new developments on undeveloped land will require Major Site Plan Review.

Minor Site Plan: A Site Plan that involves no exterior utility construction (e.g., storm sewer, water, sanitary sewer, etc.), either no grading work or a minimal amount of grading work, no more than 12 parking spaces, no more than a 15% increase of the existing building square footage, no additional access points or curb cuts, and loading areas that are less than 10,000 square feet.

Major Site Plan: A Site Plan that involves exterior utility construction (storm sewer, water, sanitary sewer, etc.), grading work, more than 12 parking spaces, more than a 15% increase in the existing building square footage, access points or curb cuts, and a loading area in excess of 10,000 square feet.

SECTION 615 - Application and Approval

An applicant, property owner, or developer is required to file an application with the Decatur County Planning Department. Action in the form of approval or denial of a Minor Site Plan by the Planning Commission's Staff shall occur within 10 working days of when the plan is officially submitted to the Planning Department's office in complete form.

Action in the form of approval or denial of a Major Site Plan is by the Plan Commission's Staff, in consultation with any other individuals or agencies that have been designated by the Plan Commission. Action on the application shall occur within 30 calendar days of when the Site Plan is submitted to the Decatur County Plan Commission's office in complete form. Upon approval of a site plan application, a Certificate of Land Use Restriction that specifies site plan approval and improvements shall be recorded in the Recorder's Office for the real property in question. The Certificate of Land Use Restriction shall be released upon satisfactory completion of all required site improvements.

An appeal of the Staff denial of a Minor/Major Site Plan can be made to the Plan Commission and shall be scheduled at its next regularly-scheduled meeting. Written notification shall be made by the applicant to the Planning Director within thirty (30) calendar days of the Staff denial. Final action for approval or denial on the appeal of a Minor/Major Site Plan shall be made by the Plan Commission. Reasons for denial of a Minor/Major Site Plan by the Plan Commission shall be given to the applicant in written form.

A waiver of any Site Plan requirement can be requested as part of the application for the development. In addition, extensions of the time requirements specified by this Article can be requested with the application for Site Plan Review. All waiver and extension shall be reviewed by Planning Director and issued only if such a waiver/extension is necessary due to unusual or extreme circumstances inherent in the project site and if the requested waiver/extension does not

adversely affect the Site Plan requirements of this Article.

SECTION 620 - Site Plan Requirements

All Minor Site Plans submitted to the Decatur County Plan Commission shall be in accordance with this article and shall contain the following information:

1. Dimensions of the site or lot;
2. Location and width of all public and private streets, driveways, and other vehicular circulation areas;
3. Location of all existing and proposed structures;
4. The proposed use at the site;
5. Square footage and height of proposed building or addition;
6. Location of all existing water, sanitary sewer, storm sewer, electric and cable television lines, easements and poles;
7. Location of any proposed parking spaces with dimensions and access points;
8. Statement declaring that "no storm water detention, grading, or utility construction is necessary for construction of building addition or site work".
9. A listing of any variations from the requirements set forth in the Decatur County Zoning Ordinance. The variations can then be analyzed to determine if any require consideration from the Decatur County Board of Zoning Appeals.

All Major Site Plans submitted to the Decatur County Plan Commission in accordance with this article shall contain the following information:

1. Project name, date, north arrow, location map (a map which clearly shows the location of the property in respect to existing road and landmark);
2. A scale not smaller than 1 inch equals 100 feet or as approved by the Planning Director or designee;
3. A stamp or seal of an Indiana registered professional engineer, architect, landscape architect or land surveyor (the scope of work performed by such professionals in conjunction with a site plan submission is limited to that permitted by their respective licensing authorities). If grading and/or storm sewer construction work are being proposed, an Indiana registered professional engineer or surveyor shall be required to submit grading information and design the appropriate storm water system. A stamp or seal of a Indiana registered professional engineer or surveyor is required for grading and storm water construction work;
4. The present zoning of the subject property and all adjacent properties;
5. All existing and proposed public and private right-of-ways and streets; (See Article 24)
6. All abandoned streets;

7. Existing and proposed finished topography of the subject property shown by contours with intervals not to exceed 5 feet. If necessary, the Decatur County Plan Commission may request a geo-technical report of a specific site;
8. Location and height of existing and proposed structures on the property with each existing and proposed use noted;
9. Dimensions of each lot or property boundaries;
10. Proposed housing units proposed on the property depicting location, arrangements, number or units in each building, and where applicable, location and dimensions of all lots;
11. Location and arrangement of all common open space areas and recreational facilities;
12. Location, size, and type of all landscaping features (e.g. berms, walls fences, planting material) including: a landscape schedule that specifies plant species, number of plants per species, plant size at installation, and mature plant size; total square footage of the Vehicular Use Area (VUA), the total square footage required to be landscaped and the total landscaped area provided; and, existing trees which are to be retained including temporary fenced or taped areas which will be used to protect the trees during site disturbance. (See Article 22).
13. Location, orientation, lighting, materials, size, and height of signs (See Article 20);
14. Floodplain and/or floodway zone certification and base flood elevation if applicable;
15. Location of all existing and proposed utility lines and easements (each line should be labeled existing or proposed);
 - a. Water distribution systems, including line size, width of easements, type of pipe, location of hydrants and valves, and other appurtenances;
 - b. Sanitary sewer system, including pipe sizes, width of easements, gradients, types of pipes, invert elevations, location and type of manholes, the location, type, size of all lift or pumping stations, capacity, and process of any necessary treatment facilities, and other appurtenances;
 - c. Storm sewer and natural drainage system, including pipe and culvert sizes, gradients, location of open drainage courses, width of easements, location and size of inlets and catch basins, location and size of detention or retention and/or sedimentation basins, and data indicating the quantity of storm water entering the subject property naturally from areas outside the property, the quantity of flow at each pickup point (inlet), the quantity of storm water generated by development of the subject area, and the quantity of storm water to be discharged at various points to areas outside the subject property. Show location of all detention/retention ponds (See Decatur County Drainage Ordinance);
 - d. Other utilities (e.g., electric, telephone, etc.) including the type of service and the width of easements, if information is available;
 - e. Statement located on the Plan regarding who will maintain the drainage system;
16. Location of all off-street parking, loading and/or unloading and driveway areas, (See Article 21 & 24);

- a. the type of surfacing;
 - b. width, and depth of parking stalls, including disabled stalls;
 - c. driveway width;
 - d. traffic flow areas for one way traffic;
 - e. angle of parking used;
 - f. number of parking spaces and loading spaces;
17. Circulation system details that include the following: (See Article 24)
- a. Pedestrian walkways, including alignment, grades, type of surfacing, and width;
 - b. Streets and driveways including alignment, grades, type of surfacing, width of pavement, and right-of-way and whether public or private;
 - c. Provisions for access management, which may include, but are not limited to:
 - i. a frontage road (public or private);
 - ii. coordination of curb cuts;
 - iii. curb cut connections accessible to adjoining properties;
 - iv. internal and external traffic control measures and traffic circulation patterns; (See Article 21)
 - d. Location of all above ground and underground storage tanks;
 - e. Location of dumpsters;
 - f. Location of outdoor storage areas.
18. Construction or installation details for the following:
- a. paving, curbing, and sidewalk sections;
 - b. wheelchair ramps and/or curbs;
 - c. on-site traffic/vehicular regulatory signs, including disabled parking stall signage,
 - d. curb cuts;
 - e. garbage storage area enclosure or screening;
 - f. site lighting fixtures;
19. Provisions for control of erosion, hillside slippage, and sedimentation, indicating the temporary and permanent control practices and measures which will be implemented during all phases of clearing, grading, and construction. Show all affected or disturbed areas during construction on or within close proximity of the site (i.e., excavation, fill or storage). All provisions shall be in compliance with the Decatur County Drainage Ordinance;
20. If the proposed site was part of a zone change request, submit a copy of the approved concept development plan or show the relationship of the location of the proposed structure(s) to the approved zone change request;
21. Each applicant shall be required to submit traffic information estimating at minimum peak

hour traffic entering and exiting the site under review. This information shall be used by the Plan Commission in determining the location of curb cuts or any additional traffic management controls on each site. When appropriate, a Traffic Impact Assessment may be required to be submitted for review by the Plan Commission (See Article 24);

22. Architectural information including the location of main doors and overhead doors shown on the site plan and the height of all structures noted on the site plan. Architectural elevations and renderings which illustrate the overall external building design, and materials and colors to be used in the building design shall be provided for sites that are subject to other design review requirements, such as conditions of zone change or Concept Development Plan approval;
23. Location of existing recorded or unrecorded cemeteries, buildings listed on the National Register or archaeological sites (See Article 25);
24. Location of parking lot and driveway lights and their illumination areas on the project site and adjoining properties (See Article 25);
25. Any development which requires that a public improvement be made as part of the development may require a financial surety to cover the cost of the public improvements. The Planning Director shall determine if a surety is needed.
26. A listing of any variations from the requirements set forth in the Decatur County Zoning Ordinance. The variations can then be analyzed to determine if any require consideration from the Decatur County Board of Zoning Appeals.

The aforementioned information required may be combined in any suitable and convenient manner so long as the data required is clearly indicated. For property to be developed in sections or phases, detailed Site Plans containing the above information need not be submitted for the entire property. Plans conforming to these criteria should be submitted for the section or phase to be developed along with conceptual or schematic plans for the entire property in order to show the relationship of the relevant section to the entire development plan.

SECTION 625 - Expiration and Extension of Approval Period

The approval of a Site Plan shall be for a period not to exceed two years. If no grading work or building construction has begun within two years after approval is granted, the approved Site Plan will be void. Only a single one (1) year extension of an approved Site Plan may be granted upon request to the Plan Commission prior to the two year expiration date.

SECTION 630 - Completion of Site Plan Construction Work and Requirements

All requirements of the approved Site Plan must be completed within six months of building occupancy unless an extension is granted by the Planning Director upon request. The Plan Commission's Staff will conduct a post-development site inspection after the period specified above or occupancy of the use has begun. The purpose of the site inspection is to verify compliance with the approved Site Plan. Any deviation from the approved Site Plan may require

a new application or an as-built plan be provided. The Planning Director shall make this decision. If no building construction is being proposed, all site construction work, if begun, is to be completed one year from the approval date by the Plan Commission. A copy of the approved Site Plan shall be retained on the job site until all site improvements have been completed and have been accepted by the Decatur County Plan Commission.

SECTION 635 - Changes or Amendments

Any changes made to the approved Site Plan prior to the development of the site or building shall require the approval of the Plan Commission staff. Depending on the extent of the changes, a new application may be required by the Planning Director or designee. Any variations to an approved Site Plan that occurred in the development of the site or building will require that an “as built” Site Plan be submitted for review to the Planning Department. Depending on the extent of the changes, a new application may be required. If the “as built” site plan does not conform to the requirements in the Ordinance, it will be handled as a violation of the ordinance under Article 6.
